

# Planet future

It's time to find some shooting stars! You might have seen one at night before, and some people like to make a wish upon a shooting star. On these pages, write or draw your wishes and hopes for the future. Think about small and big things you would like to happen, like learning a new language or making a memory box, travelling to a new country or going to university when you grow up!

In the future, I wish...

My dream is to...

One day, I hope...
